SafetySetu: Stop UPI Scams Before Money Leaves Your Account

Fraudsters can clean out your bank balance in seconds — SafetySetu catches them instantly right on your phone.

Sub-15ms Protection

Screen-Share Hijack Blocker

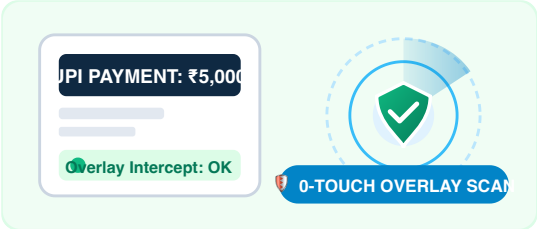

Instant alert & screen freeze the moment someone tricks you into sharing your screen during a UPI payment (Stops AnyDesk/TeamViewer scams).

Instant Threat Freeze

Real-Time Payment Interceptor

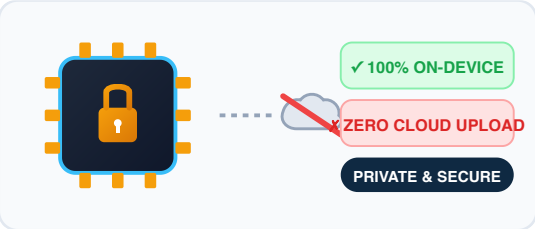

Monitors active payment interfaces and suspicious overlay windows locally on the smartphone before unauthorized transfers occur.

100% On-Device Privacy

100% Privacy — Zero Cloud Leakage

Runs completely on your smartphone device. Zero passwords, OTPs, or bank details are ever uploaded to any cloud server.

CROSS-INDUSTRY BUSINESS AUTOMATION

Case Study: How We Solved Real Agency Problems

How we turned a solo insurance agency's painful manual routine into the InsuranceSetu automation product.

Preksha Insurance (Manual Daily Pain)

THE CHALLENGE

- **Messy PDF Statements:** Insurer statements come in cluttered PDF tables with policy numbers but **zero customer phone numbers**.
- **Manual Contact Hunting:** Must manually dig through old spreadsheets and phone contacts just to find who to follow up with.
- **Lost Business Growth Time:** Agency owner wastes hours every month doing repetitive clerical lookup instead of meeting new clients.
- **Missed Renewals:** Without systematic automated reminders, clients miss grace periods and policies lapse.

The InsuranceSetu Solution

THE AUTOMATED OUTCOME

- **1-Click PDF Extraction:** Drop any insurer PDF statement — all policy data is extracted and organized in 2 seconds.
- **Smart Auto Contact Match:** Automatically links each policyholder to their phone contact with zero manual searching.
- **1-Tap Multilingual WhatsApp:** Auto-sends personalized payment reminders in Gujarati, Hindi, & English with PDF receipts.
- **Saves 3 Days Every Month:** Frees up 3 full working days every month for agencies with 500+ policies.

CROSS-INDUSTRY BUSINESS AUTOMATION

How Can This Automation Help YOUR Specific Business?

If you have manual customer follow-ups, documents, or status tracking — we can automate it for you!

Trading, Travel, Manufacturing & Visas

COMMERCE & SERVICES

Sugar Substitute, FMCG & Trading

Automated weekly dealer re-orders on WhatsApp, dispatch alerts, and payment collection follow-ups.

Immigration & Visa Consultancy

Automated applicant document checklists, stage-by-stage visa tracking, and WhatsApp status updates.

Travel & Tourism Agency

1-Click WhatsApp itinerary delivery, hotel voucher dispatch, and real-time cab driver coordination.

Plastic & Product Manufacturing

B2B sample dispatch tracking, quote approvals, client feedback, and shift logs on a simple mobile app.

Finance, Legal, Tax & Operations

PROFESSIONAL PRACTICES

Finance & Loan Approval Cycle

Mobile intake for customer KYC documents, multi-stage approval checkmarks, and sanction alerts.

Lawyers & Legal Practices

Automated court hearing date reminders to clients and instant digital case file lookup.

Taxation, CAs & Corporate Gifting

Automated GST/ITR filing deadline alerts, client document upload vaults, and festival gifting catalogues.

Attendance & Field Staff Tracking

1-Tap mobile/GPS attendance, field visit logs, and real-time team task updates with zero hardware.

CORE ARCHITECTURE & CAPABILITIES

Doing Business Across India? Break the Language Barrier!

What if a Gujarati or Mumbai business needs to sell to customers in Tamil Nadu, Andhra (Telugu), or the North?

65% Customer Friction

The Language Wall

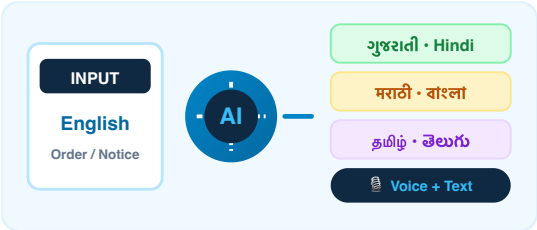

When your app, portal, or message is English-only, over 65% of Bharat customers feel hesitant, misunderstood, or bounce to competitors.

10+ Indian Languages

TenCore Multi-Lingual Engine

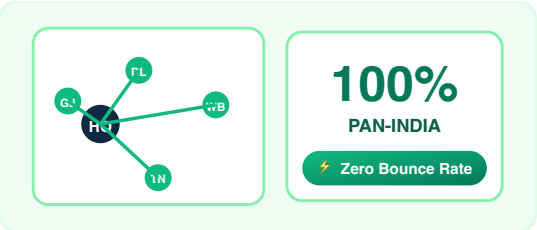

We build custom systems that communicate in the client's mother tongue — WhatsApp text and audio voice alerts in Gujarati, Hindi, Marathi, Telugu, Tamil, & more.

100% Pan-India Reach

Zero Customer Left Behind

Give every customer across India the comfort of their regional language. Scale your business smoothly from Gujarat to Tamil Nadu.

STRATEGIC VALUE & MARKET FOCUS

Let's Ask: Are You Stuck in Any of These Situations?

Take a moment to reflect on your daily business operations — where is manual friction slowing you down?

1. Staff Forgets Follow-ups?

You sent a ₹5 Lakh quote, but your sales staff forgot to follow up after 3 days and the client went to a competitor.

2. Tired of Evening Excel Tally?

Spending 2 hours every evening manually checking employee attendance, WhatsApp orders, or pending payments.

3. Missed Appointments & Client No-Shows?

High-value clients forget scheduled consultations, site visits, or meetings because staff forgot to send timely WhatsApp calendar reminders.

4. Want Your Own Mobile App?

Your competitors are offering client apps and portals, while you are still managing high-value clients through messy WhatsApp chats.

CORE ARCHITECTURE & CAPABILITIES

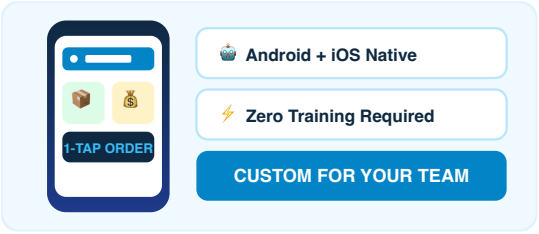

TenCore Digital Labs: Tailor-Made Solutions for You

We don't force you into rigid software. We build software and custom automation fitted exactly around YOUR business workflow.

Simple & Intuitive

Custom Mobile Apps (Android & iOS)

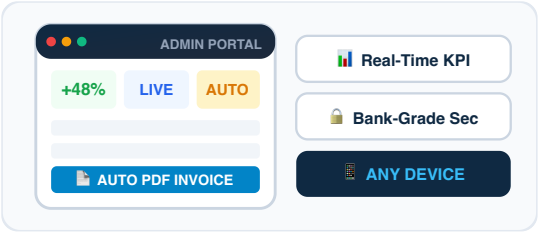

Fast, simple mobile apps for your field staff, dealers, or customers that require zero technical training.

Real-Time Control

Smart Web Portals & SaaS

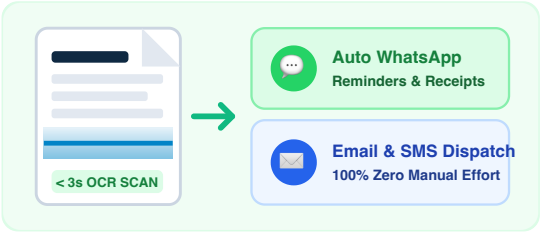

Live dashboards, automated PDF invoicing, and real-time operational tracking accessible securely from any device.

10x Operational Speed

Document & Communication Automation

Scan cards, documents, PDFs, and Excel in less than 3 seconds. Trigger WhatsApp and Email follow-ups automatically.

NEXT STEPS & ENGAGEMENT
