TenCore Digital Labs

PRODUCT ENGINEERING & INTELLIGENT SOFTWARE

BNI CLASSIFICATION SCOPE
Mobile App & SaaS Product Development

✓ 1. INCLUSION LIST (What TenCore Digital Labs Covers & Claims)

CORE SEAT A. Mobile Application Development

- **Native & Cross-Platform Apps:** Swift, SwiftUI, Kotlin, Flutter, and React Native for iOS & Android devices.
- **Mobile UI/UX Design:** Wireframes, interactive Figma prototypes, and Apple HIG / Material Design systems.
- **App Store Deployment & ASO:** Full Apple App Store and Google Play compliance, certificates, and release management.
- **Maintenance & OS Modernization:** Legacy code refactoring, OS version updates, crash tracking, and SLA support.

PRODUCT ENGINEERING B. SaaS Platform Development

- **Multi-Tenant SaaS Architecture:** Full-stack engineering for B2B/B2C cloud platforms with subscription billing & role management.
- **Mobile-First & Companion Apps:** Native iOS/Android companion applications for web SaaS platforms.
- **Rapid MVP Prototyping:** Accelerated design and engineering sprints for founders launching commercial products.
- **Scalable Cloud Backends:** Node.js, Python, PostgreSQL, serverless backends, and GraphQL/REST APIs.

AI IMPLEMENTATION C. Agentic AI & Intelligent App Engineering

- **Autonomous Agent Systems:** Engineering autonomous task bots, multi-agent orchestrations, and intelligent co-pilots.
- **AI-Powered Product Features:** Embedding LLMs, computer vision, voice agents, and predictive workflows into apps.
- **Process Automation Agents:** Custom software agents designed to automate complex, multi-step digital operations.

REFERRAL GATEWAY D. Technical Feasibility Assessments

- **Concept & Architecture Validation:** Assessing commercial & technical feasibility before coding begins.
- **AI Reliability Check:** Identifying practical automations vs. high-risk LLM failure points for businesses.
- **Tech Stack & Cost Roadmaps:** Providing founders with clear MVP timelines and architectural blueprints.

DOOR-OPENER REFERRAL HOOK Signature Chapter Hook: Complimentary 30-Minute AI & App Feasibility Audit

1. Technical Feasibility
Validates whether the app or AI workflow is viable, performant, and scalable.

2. Architecture & Stack
Recommends optimal framework (Native vs. Flutter, Cloud & AI models).

3. MVP Timeline & Budget
Delivers realistic build milestones and cost estimates for decision-makers.

2. EXCLUSION LIST (Respecting Co-Members' Specialized Categories)

SERVICE AREA	RESPECTED CATEGORY SEAT	EXPLICIT EXCLUSION (PASSED TO CO-MEMBER)
Enterprise Internal IT & Legacy Systems	**Custom Software**	On-premise enterprise ERPs, SAP/Oracle extensions, custom internal desktop warehouse tools, and legacy desktop database migrations.
Corporate AI Advisory & Training	**AI Consultant**	High-level corporate AI roadmaps, company-wide AI readiness audits, executive AI policy consulting, and employee AI training workshops.
Standard Marketing Websites	**Web Designer / Agency**	WordPress, Wix, Squarespace, Webflow marketing brochure websites, basic CMS blogs, and informational static websites.
Digital Marketing & Ads	**Digital Marketer / SEO**	Social media marketing management, Google/Meta paid ad campaigns, organic search SEO optimization, and email marketing.
IT Support & Office Hardware	**IT Managed Services (MSP)**	Office networking, server room provisioning, local workstation maintenance, hardware repairs, and corporate IT helpdesks.

3. CROSS-REFERRAL BLUEPRINT (How We Win Together)

⇄ Collaboration with AI Consultant

We refer: Clients needing corporate AI readiness audits, model governance, and executive workshops.
They refer: Clients needing production mobile apps, SaaS UI, or autonomous AI agents engineered and coded.

⇄ Collaboration with Custom Software

We refer: Inquiries for heavy desktop-based ERPs, internal factory logistics, and legacy database retrofits.
They refer: Clients requiring native iOS/Android mobile clients or commercial consumer/B2B SaaS products.

CHAPTER VALUE How to Spot a Referral for TenCore

Listen for founders, executives, or business owners saying: *"We want an app for our business,"* *"Our team needs to automate multi-step digital workflows,"* or *"We have a software product idea and need a technical build partner."* Connect them to TenCore for a **Free 30-Minute AI & App Feasibility Audit**.
